Section 2 VN530 Brew MP Class Support Comparison.....5

Section 1 Summary

The following validation report is intended to present the developer with a class list comparison of classes that are supported and unsupported on the LG VN530 device. The data contained herein is not intended to demonstrate any capability of the hardware itself, rather the level of supported for Brew MP classes and APIs.

Throughout the document there are many abbreviated and technical terms. If any of these terms are unfamiliar, please refer to the Brew MP Glossary on the [Brew MP website](#).

For more information on Brew MP classes please refer to the [online reference](#).
