

OEM Limitations for LG VN150 (PID 1391)

Manufacturer : LG Electronics.

Handset Model : VN150

PID : 1391

Operator : Verizon

Software build : VN150ZV2

HW Version : Revision D

Device limitation : The bluetooth interface (IBT) is NOT supported.

Description :

The device has Bluetooth feature available. However, to develop a Bluetooth based BREW application, developers would require the "IBT" interface. Ironically, this device does NOT support the IBT interface. Hence, we recommend the developers to avoid developing Bluetooth based BREW applications for this device.

Note : Developers are recommended to make a note of this device limitation.
